1) September 20 is good for Walter Mugdan, Superfund Director, to attend the CAG meeting. He will be presenting on the lower 8 mile FFS remedial options.

2) A call is needed, we propose:
Tues, 9/4, between 12:30 and 1:30
Wed after 1:30 pm
Thurs probably any time, but preferably after 9:30am.

As I understand it, the CAG could potentially focus on lower 8 mile options, Newark removal summary and Lyndhurst removal bench scale results, due 9/17, but not sure if we'd be ready to talk about it on 9/20. Probably too much?

Let's discuss next week. Enjoy your holiday weekend!

Absolutely please bring him. We should have a CAG planning meeting next week. We have two major topics plus the BonJiornos who will want to take up some time re-hashing air issues over Newark removal and upcoming Lyndhurst project. not sure we have time for lengthy removal update (promised) plus Walter's in depth lower 8 options presentation and NRRB letter discussion. I am copying Liz and Alice and Doug Sarno and suggest we all conference with Sarno next Tuesday or Wednesday (Liz I believe is on vacation). Once we have a recommendation Doug can propose recommendation to Debbie and Carol. Any time Tuesday or Wednesday after 11 is good for me. Thursday good also.

Betsy Donovan has a mentee in the Drinking Water and Municipal Infrastructure Branch, Dan D'Agastino, who's interested in learning more and, possibly, helping out with the Passaic.

I mentioned the upcoming CAG meeting and he's interested in attending. Before I say yes, I just want to make sure neither of you have any concerns with this.

Ray -- this is the same person Eugenia had sent an email about. I had suggested he contact her to see if there were any technical things he could help with.

Thanks
